- ✓ Valve, drum, door-lock and drain feedback
- ✓ Better cycle information for customers
- ✓ Helps reduce avoidable service calls and refunds

**Bring connected payment and real-time feedback to your store.**

Promotional V-PULSE and V-SENSE hardware pricing requires a minimum purchase of 10 units of the applicable product. V-SENSE requires V-PULSE and an in-store Wi-Fi signal to transmit real-time telemetry. Initial coin drop compatibility currently covers selected Imonex and Münzprüfer models. Machine compatibility is confirmed at the time of order; additional adapters are in development. The regular \$199 account setup fee is waived, and the \$5 combined monthly rate applies for the first 12 months when both systems are purchased together. The regular setup fee is \$199, and the regular combined rate is \$7.98 per machine / month thereafter. A 1% V-PULSE fee applies on customer account loads, and a \$0.02 fee applies on every successful V-PULSE machine start. All quotes are in Canadian dollars. Taxes, freight and installation materials are additional. This promotional offer expires December 31, 2026.

## V-SENSE: AN INDUSTRY FIRST

Real-time machine monitoring for supported washers and dryers from multiple brands\*

Customers benefit from real-time cycle progress and end-of-cycle alerts while owners benefit from reduced service calls and machine downtime.

*V-SENSE requires an in-store Wi-Fi signal to transmit real-time telemetry.*

*\*Based on the third-party payment and telemetry systems reviewed for this comparison.*

Brand marks identify manufacturers only. Compatibility is confirmed by machine model at the time of order.
